

Social Studies Alive!®

Regions of Our Country

TCI's *Social Studies Alive! Regions of Our Country* serves double duty by helping students master social studies standards and reinforcing reading and language arts skills.

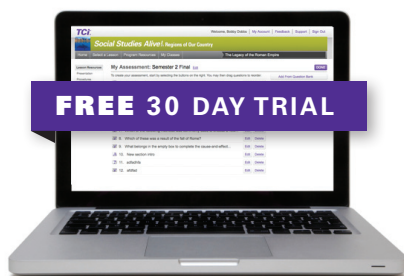

With hands-on activities, students

- “tour” the Southeast region of the United States by boat and bus.
- discover how population density in the Northeast affects the lives of people who live there.
- explore the history of how people have used and shared water of the Colorado River.

Teachers can:

- cover state standards in history, geography, economics, and government.
- support language arts instruction in the social studies curriculum with vocabulary development, reading strategies, a variety of writing activities, and numerous opportunities to develop speaking and listening skills.
- measure student mastery with rigorous assessments that cover comprehension, skills, and critical thinking.
- modify instruction for English language learners, learners with special education needs, and enrichment.
- integrate technology into classroom instruction with the Teacher Subscription and Student Subscription.

Test-drive with a 30 Day Trial

With the Teacher Subscription, teachers can get an entire class interacting with one computer, an internet connection and a projector. Students thrive on the immediate feedback they get using the Student Subscription's Reading Challenges.

Social Studies Alive! Regions of Our Country presents five regions of the United States through the lens of four social sciences — economics, geography, political science, and history. Students learn to think like social scientists as they “tour” the regions, investigating the features that make the regions distinct and the characteristics that unite them. Ultimately, students apply what they have learned about our nation as they research their own states.

- 1 Discovering the Social Sciences
- 2 Exploring Regions of the United States
- 3 The Peopling of the United States
- 4 A Train Tour of the Northeast
- 5 Population Density and Life in the Northeast
- 6 A Boat and Bus Tour of the Southeast
- 7 The Effects of Geography on Life in the Southeast
- 8 A Crop Duster Tour of the Midwest
- 9 Agricultural Changes in the Midwest
- 10 A Big Rig Tour of the Southwest
- 11 A Case Study in Water Use: The Colorado River
- 12 A Van and Airplane Tour of the West
- 13 Cities of the West
- 14 Researching Your State's Geography
- 15 Researching Your State's History
- 16 Researching Your State's Economy
- 17 Researching Your State's Government
